PLEASE NOTE—ABOUT WARRANTING SEEDS

NON-WARRANTY Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we still give no warranty, express or implied, as to productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seeds, plants or bulbs and every order for articles named in this price list will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

ST. LOUIS SEED COMPANY—"Pure and Sure" Seeds

HAVALAWN grass seed is our special blend of fine grasses. We have offered it to our customers for many, many years and the gratifying results our customers have reported over the years, makes us proud of the fact that it has always been our aim to offer **QUALITY SEED**.

HAVALAWN grass seed is a mixture of selected varieties of high purity and germination lawn seeds that will produce a fine leaved, deep rooted sod, under average conditions of soil and climate. Sow HAVALAWN grass seed at the rate of one pound to every 300 square feet.

Remember that **QUALITY** grass seed is of the first importance in lawn making.

We offer HAVALAWN grass seed and other fine, high quality grass seed (see page 3), and will be pleased to mail a copy of our circular "The Lawn" upon request. We believe "The Lawn" circular will be of invaluable help to you, but we will be more than happy to have your inquiries on lawn and garden problems as it is our aim to offer **SERVICE** as well as **QUALITY** always, and our advice or help is yours for the asking.

10-6-4 "PURE and SURE" PLANT FOOD (High organic-No filler)

"PURE and SURE" 10-6-4 PLANT FOOD is especially packed for us. We offer it to our customers with the confidence of our more than fifty years experience in the seed and fertilizer business.

"PURE and SURE" 10-6-4 PLANT FOOD is a no filler, high organic fertilizer, not treated with salts or acids. No filler means that no sand or cocoa shells or other worthless material has been added to bring up the weight of the bag - you receive a full bag of fertilizer, all of which feeds your plants, trees, shrubs, lawns, gardens, etc.

"PURE and SURE" 10-6-4 PLANT FOOD is high organic; includes natural ground fish, dried blood, cotton seed meal, plus trace elements. This formula affords the double purpose of supplying both quick and lasting food by the gradual decomposition of its ingredients; one of the nitrogen components starting to feed in about five days, another starting in 10 to 15 days, another in 20 days, another in 50 days, etc., which makes it ideal for all plants. (See inside front cover.) Complete directions on each bag.
